- o Have the STUDENT fully groom their horse.
- o Have the STUDENT fully saddle their horse.
- o Warm Up horse
- o Go over correct riding form
- o Review previous riding lesson.
- o Practice Loping Circles.
- o Cool out horse.
- o Dismount, Tie-up, brush down, put away.

This lesson plan is only a guideline as to how each lesson should go. Each student is different and the lessons may need to be spread out over more lessons or could even take fewer lessons. Once the student is able to do everything in their lessons well at each gait they should move up to their chosen disciplines.

If the students are NOT cantering/loping, then their lessons are to remain at 30 minutes in length and they should continue to practice maneuvers in Lessons 1 - 11.

If students are to the point of needing to advance to cantering, then their lessons will be bumped up to an HOUR in length. (There is also a price bump for the time increase.)

Thank you for choosing River Ranch Educational Charities!
